

This temporary directory is **valid through December 31, 2016**. As of **January 1, 2017**, for the most up to date directory of providers, **you must use myuhc.com, download the Health4me app or call the customer service number on your medical ID card**

The Deere Premier network has been built to provide you with quality health care through the appropriate number and types of contracted health care providers. UnitedHealthcare follows federal standards, set by the U.S. Department of Health and Human Services, to help ensure that each provider network is sufficient to meet the projected needs of the population in terms of the number and type of providers, as well as the accessibility of those providers to Deere employees and dependents. There will be hospitals and physicians in your community that are not included in the network. It is important that you refer to you myuhc.com or download the Health4me app, to see which doctors, hospitals, and other providers are within the Deere Premier network. You can also call UnitedHealth carecustomer service, at the number on your ID card, to confirm that a particular provider is in the network. Using the Deere Premier network will ensure that you are minimizing your out-of-pocket expenses for covered services. With few exceptions (e.g., Emergency Care and Urgent Care Services), services from physicians and hospitals that are not included in the Deere Premier network are considered "out-of-network" services and will result in significant higher out-of-pocket expenses. In the event that covered services are not available within the Deere Premier network, you may have your provider obtain a preauthorized referral/clinical gap, from UnitedHealthcare, for out-of-network services at network benefit levels.
