Your 2017 Prescription Drug List

Effective January 1, 2017

Oxford Connecticut Four-Tier

Please read: This document contains information about commonly prescribed medications. This Prescription Drug List (PDL) is accurate as of July 1, 2016 and is subject to change after this date. The next anticipated update will be in January 2017. Your estimated coverage and copay/co-insurance may vary based on the benefit plan you choose and the effective date of the plan. For more information:

Call us at the toll-free phone number on your health plan ID card. TTY users can dial 711. Si usted necesita ayuda en español llame al número de teléfono en su tarjeta de identificación, 1-800-303-6719, 1-888-201-4746, or the phone number on your ID card for help in English and other languages.

Visit **oxfordhealth.com**, click on the Pharmacies & Prescriptions tab and then "Online Pharmacy" to log in to the OptumRx[1] website and:

- Locate a participating retail pharmacy by ZIP code.
- Look up possible lower-cost medication alternatives.
- Compare medication pricing and options.

UnitedHealthcare® Oxford

[1]OptumRx is the administrator of your Oxford pharmacy benefit plan.

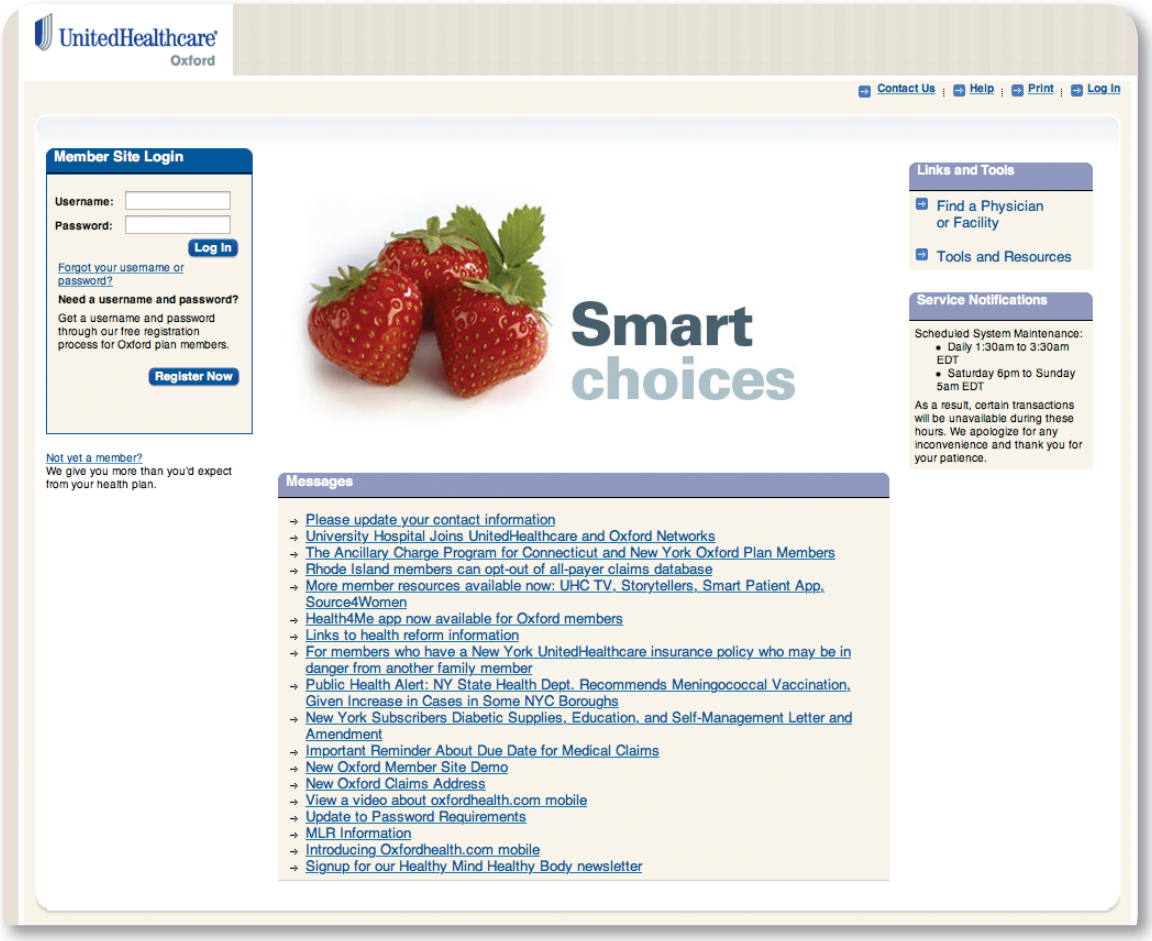
Note: Diabetic supplies and prescription medications may be subject to different cost-share arrangements. Specialized non-standard infant formulas and nutritional supplements may be subject to prior authorization. Please see your Summary of Benefits and Coverage (SBC) for specifics.

Your Prescription Drug List

This Prescription Drug List (PDL) outlines covered medications and organizes them into cost levels, also known as tiers. An important part of the PDL is giving you choices so you and your doctor can choose the best course of treatment for you.

Go to oxfordhealth.com for drug information.

Since the PDL may change, we encourage you to visit our website, **oxfordhealth.com**. This website is the best source for accessing up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons.



We want to help you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List (PDL) below.

What is a Prescription Drug List (PDL)?

This document is a list of covered medications. They are placed into cost levels known as tiers. The PDL includes both brand-name and generic prescription medications approved by the U.S. Food and Drug Administration (FDA).

Please note: Where differences are noted between this PDL and your health plan documents, the health plan documents will rule. Please look at your health plan documents to see what medications are covered under your health plan. You may also log on to **oxfordhealth.com** or call us at the toll-free phone number on your health plan ID card for more information.

How do I use my PDL?

Bring your PDL with you when you see your doctor. When choosing a medication, you and your doctor should consult this guide. It will help you and your doctor choose the most cost-effective prescription drugs. This guide will also help you know if a medication has special programs that apply to it.

If your medication is not listed in this guide, please visit **oxfordhealth.com** or call us at the toll-free phone number on your health plan ID card. TTY users can dial 711. Si usted necesita ayuda en español llame al número de teléfono en su tarjeta de identificación, 1-800-303-6719, 1-888-201-4746, or the phone number on your ID card for help in English and other languages.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2, 3 or 4, look to see if there is a Tier 1 option available. You should discuss these options with your doctor.

Check your health plan documents to find your specific pharmacy plan costs.

$	Drug Tier	Includes	Helpful Tips
	Tier 1 Lowest Cost	Lower-cost drugs. Some brand names and generics are also included.	Use Tier 1 drugs for the lowest out-of-pocket costs.
	Tier 2 Mid-range Cost	Preferred brands.	Use Tier 2 drugs instead of Tier 4 drugs to help reduce your out-of-pocket costs.
	Tier 3 Mid-range Cost	Preferred specialty and non-preferred brands.	Use Tier 3 drugs instead of Tier 4 drugs to help reduce your out-of-pocket costs.
	Tier 4 Highest Cost	Higher cost brands and generics. Non-preferred specialty and non-preferred brands.	Many Tier 4 drugs have lower-cost options in Tier 1, 2 or 3. Ask your doctor if they could work for you.

Please note: Some plans may have two or four tiers, while others may not have any. If you have a high deductible health plan, the tier cost levels may apply once you hit your deductible. Refer to your enrollment and plan materials on **oxfordhealth.com**, or call us at the toll-free phone number on your health plan ID card for more information about your health plan.

Diabetic supplies and prescription medications may be subject to different cost-share arrangements. Please see your Summary of Benefits and Coverage (SBC) for specifics.

When does the PDL change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when a generic becomes available.
- Medications may move to a higher tier or be excluded from coverage most often on January 1 or July 1.

When a medication changes tiers, you may have to pay a different amount for that medication.

For the most up-to-date list, call us at the toll-free phone number on your health plan ID card.

Programs and Limits

Some medications are in one or more of our pharmacy benefit programs. Your health plan determines how these medications are covered and may differ than what is noted in the PDL.

Health Care Reform (HCR) Preventive – This medication is part of a Health Care Reform preventive benefit and may be available at no additional cost to you.
Notification or Precertification (sometimes referred to as Prior Authorization) required[1] – Your doctor is required to provide additional information to us to determine coverage.
Supply Limit – Amount of medication covered per copayment or in a specific time period.
Step Therapy – Trial of a lower-cost medication is required before a higher-cost medication is covered.

[1]Depending on your benefit, you may have notification or precertification requirements for select medications.

To learn more about a pharmacy program or to find out if it applies to you, please visit **oxfordhealth.com** or call us at the toll-free phone number on your health plan ID card. TTY users can dial 711. Si usted necesita ayuda en español llame al número de teléfono en su tarjeta de identificación, 1-800-303-6719, 1-888-201-4746, or the phone number on your ID card for help in English and other languages.

Why are some medications excluded from coverage?

A medication may be excluded from coverage under your pharmacy benefit when it works the same as or similar to an over-the-counter (OTC) medication.[2] There may be other medication options available.

Should I talk to my doctor about over-the-counter (OTC) medications?

An over-the-counter (OTC) medication may be the right treatment for some conditions. Talk to your doctor about available OTC options.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

[2]This is not applicable for Connecticut Public Sector plans. For Connecticut commercial business, a prescription drug product that is therapeutically equivalent to an over-the counter drug may be covered if it is determined to be medically necessary

What if my doctor writes a prescription for a brand-name medication?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. For some health plans, if a brand-name medication is prescribed and a generic equivalent is available, your share of the cost may be the copayment PLUS the cost difference between the brand-name medication and its generic equivalent. Visit **oxfordhealth.com** to make sure.

Are you taking a specialty medication?

Take advantage of personalized support designed to help you get the most out of your treatment plan. Visit **UHCSpecialtyRx.com** or call the toll-free phone number on your health plan ID card to learn more. If you're taking a specialty medication that is on Tier 4, call us at the toll-free phone number on your health plan ID card to talk with a pharmacist about finding lower-cost options or a financial assistance program.

What is Mail Service Member Select?

Your plan may include a home delivery program called Mail Service Member Select, which encourages you to use the OptumRx® Mail Service Pharmacy for medication you take regularly. Choosing home delivery can help you better manage the medication you take on a regular basis, and may save you time and money.

You can either confirm enrollment in the OptumRx Mail Service Pharmacy or you can disenroll from mail service and continue to fill your maintenance medications at a retail pharmacy. You can get up to two fills at a retail pharmacy before you have to decide. However, please be aware that you must make a decision about whether or not to enroll in Mail Service Member Select. If you do nothing and continue to fill your medications at a retail pharmacy, you may pay more for your medication until you make a decision and take action. You must confirm your decision every year.

To learn more, you may log on to **myuhc.com** or call the toll-free member phone number on your health plan ID card for more information.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit **oxfordhealth.com** or call us at the toll-free phone number on your health plan ID card for more current information.

For more information

Call us at the toll-free phone number on your health plan ID card. TTY users can dial 711. Si usted necesita ayuda en español llame al número de teléfono en su tarjeta de identificación, 1-800-303-6719, 1-888-201-4746, or the phone number on your ID card for help in English and other languages.

Or, visit **oxfordhealth.com**.
