

Coupon Adjustment: Benefit Plan Protection

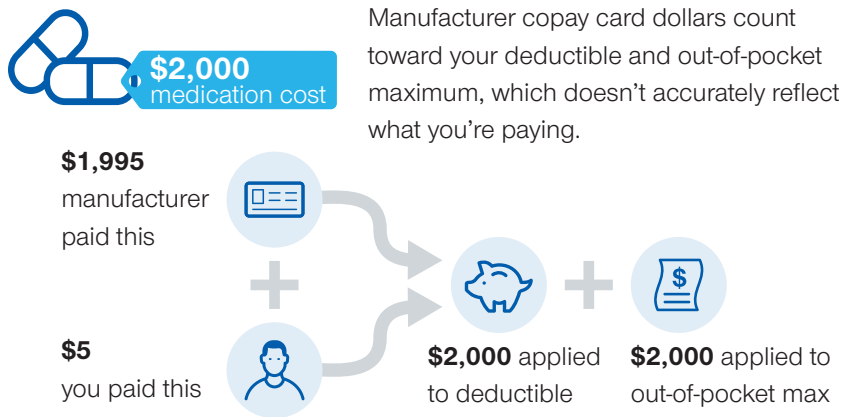

For specialty medications filled at BrivoRx only

Like many members, you may take a medication that has a copay card available from the drug manufacturer.

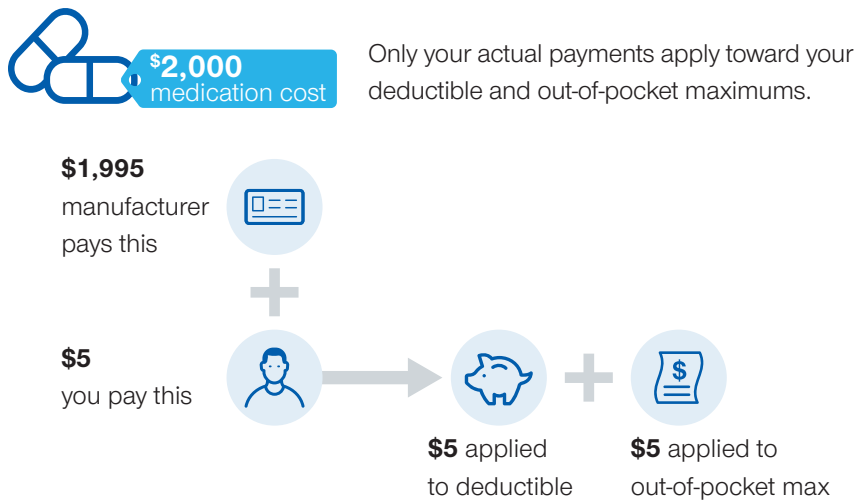

You may continue to use this card at BrivoRx®, your specialty pharmacy, to help reduce your out-of-pocket costs.

However, the dollar value of the card will no longer apply toward your deductible or out-of-pocket maximum under your plan since you don't pay that amount. Only the dollars you actually pay out of pocket will count toward your deductible and out-of-pocket totals.

How it worked before

How it works with the new program

- Coupon Adjustment: Benefit Plan Protection ensures that only the dollar amount you pay applies to your copay and out-of-pocket maximum, not the amount paid by the pharmaceutical manufacturer's copay card or coupon.
- You will now see clear communication highlighting how the copay card payment is applied on **myuhc.com**®, your explanation of benefits, and through customer service.
- Not all network pharmacies participate in this coupon adjustment program, so the initial rollout will apply to prescriptions filled through BrivoRx only.
- To find out if your plan participates in this program, call the toll-free member phone number on your health plan ID card.
